

## **TELEXCHANGE FACILITIES – Lisbon, Madrid, Southern Europe**

**Client:** TyCom Global Network

**Value:** £10m

Madrid TEC – Battery Room

Lisbon TEC – Admin Area

### **Description:**

Earth Tech were appointed to design two TelExchanges in the cities of Lisbon and Madrid for the TyCom Southern Europe network. Work was undertaken utilising one floor in two existing buildings and required close co-ordination with landlords existing electrical and mechanical facilities.

The work involved site selection, multi-disciplinary design, M&E procurement, project and contract management. The facilities required extensive HVAC control and were all completed within a very short design and construction period.
