

OFFICE FIT OUT – London, UK

Client: Major International Telecoms Company

Value: £0.5 million

London - Office Fit Out

Description:

Earth Tech was appointed as Project Manager for relocation of this client's London headquarters. The Earth Tech scope was as follows:

- .. Project Manager
- .. Construction Manager
- .. Main Contractor
- .. M & E Designer
- .. Building permits coordinator
- .. Move coordinator for 95 staff

Working in conjunction with an American architect, appointed by the client, Earth Tech provided a complete service for the second floor fit out of the building in Central London and relocation of the client. Dilapidations works at the old office were also arranged and completed. The office layout for 95 staff included reception area, partitioned offices, conference facilities, and kitchen/break room. The fit out works included alterations to A/C systems, fire detection systems, BMS and installation of a new IT cabling, access control and security system

Earth Tech also performed the Main Contractor role for this project, which included the full fit out works, dilapidations, security systems and removal as well as coordination of direct suppliers of furniture.
